PRECISION FOR HEALTH

2024 – 2025

seca

full scale

Choosing seca means more than just selecting a scale.

It means choosing excellence, tradition, precision, innovation, reliability, security, inventiveness, comfort, and efficiency.

Choosing seca is choosing the future of medical measuring and weighing.

As one of the first Med Tech companies in Europe, seca has passed the official MDR (Medical Device Regulation (EU) 2017/745) audit even before the new EU regulation came into effect. All products developed by seca will be MDR certified within 2024.

17
branches worldwide: we are your next-door tech wizards.

68%
market share: serving health care professionals around the globe.

110+
exclusive partnerships: the VIP pass to the seca experience.

1840

the birth year of the future world market leader: two decades ahead of the telephone's debut.

100%

progress powered by precision.

70+

in-house engineers and developers keep us ahead in innovation.

24 Million

daily measurements powered on a seca device worldwide: seca's precision in action.

175K

newborns touch a seca for their first time every day.

180+

years of medical device expertise: our pioneer spirit still thrives.

97%

accurate in muscle mass measurement compared to a whole-body MRI. Beat that!

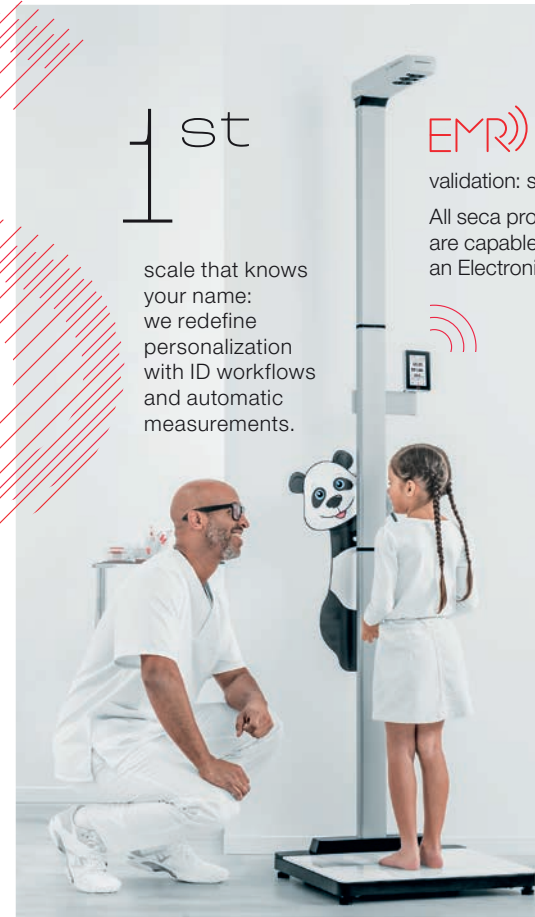

1st

scale that knows your name: we redefine personalization with ID workflows and automatic measurements.

EMR

validation: secure data transmission. No errors. No fuss. All seca products shown together with this logo are capable of transmitting measurements into an Electronic Medical Record (EMR) system.

SERVICE

our award-winning commitment to medical care.

2 CEOs, brothers and owners steering the family legacy into its fifth generation.

Baby scales

Babies who feel safe and secure are easier to weigh.

Baby scales by seca make weighing fast and comfortable, thanks to the skin-friendly materials that immediately take on and radiate body warmth. With designs that make the baby feel safe and advanced functions that shorten the weighing process, such as seca integration solutions. They allow you to transmit measurements quickly, securely and wirelessly to any EMR (Electronic Medical Record) system.

seca 757

EMR-validated baby scale with very precise graduation

- + Utmost accuracy: suitable for premature infants
- + Weighing tray made of heat-retaining plastic
- + Backlit, easy-to-read LCD display
- + Included rechargeable batteries allow mobile use without searching for a power outlet
- + Three-stage adjustable damping for fast weighing
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

The backlit LCD display ensures results can be easily read, even in dimmed rooms.

Approval class	III
Capacity	15 kg
Graduation	2 g < 5 kg > 5 g
Medical Device Regulation (MDR) certified	
For further technical data see page 42	

Image contains optional digital measuring rod seca 234 and barcode scanner from a third-party vendor.

seca 336 i

EMR-validated baby scale with Wi-Fi function

- + EMR-validated via Wi-Fi: transmit measured data directly to an electronic medical record (EMR) system or printer
- + USB port for barcode scanner for user and patient identification
- + Optional with digital measuring rod seca 234 or analog measuring rod seca 232 n
- + Damping system for fast weighing
- + Easy-to-read, backlit LCD display

Barcode scanners can be plugged in directly to the scale's USB port for optional user and patient identification.

Approval class	III
Capacity	20 kg
Graduation	5 g < 10 kg > 10 g
Medical Device Regulation (MDR) certified	
For further technical data see page 42	

Image contains optional analog measuring rod seca 232 n.

seca 336

Baby scale with flat weighing tray and optional measuring rod

- + Measuring and weighing can be done in a single step thanks to an optional length measuring rod
- + Flat construction for easy storage in drawers
- + Wide range of functions: TARE, BMIF, HOLD, Auto-HOLD and adjustable damping
- + Easy-to-read, backlit LCD display
- + Optional with digital measuring rod seca 234 or analog measuring rod seca 232 n

The optional measuring rod can be used to determine weight and height simultaneously.

Approval class	III
Capacity	20 kg
Graduation	5 g < 10 kg > 10 g
Medical Device Regulation (MDR) certified	
For further technical data see page 42	

Image contains optional measuring rod seca 233.

seca 376

Baby scale with extra large weighing tray

- + Weighing tray with high side walls for increased safety
- + Weighing and measuring in one step thanks to optional length measuring rod
- + Three-step damping for fast weighing
- + Large tray is suitable for weighing toddlers while sitting
- + Medical-grade seca scale technology with precise graduation

High sides on weighing tray offer special protection from falling out.

Approval class	III
Capacity	20 kg
Graduation	5 g < 7.5 kg > 10 g
Medical Device Regulation (MDR) certified	
For further technical data see page 42	

seca 745

Mechanical baby scale with sliding weights

- + Classic construction with high-quality precision mechanics
- + Same level of accuracy as a digital baby scale
- + Corrosion resistant inside and outside: Moisture is not a problem
- + Removable weighing tray is easy to clean and perfect for mobile use
- + Additional sliding weight for the deduction of the tare weight of cloths, etc.

The reset-to-zero function guarantees reliable determination of net weight by simply deducting the extra weight of padding or diaper.

Approval class	III
Capacity	16 kg
Graduation	10 g
Medical Device Regulation (MDR) certified	
For further technical data see page 42	

seca 385 / seca 384 / seca 834*

2-in-1 mobile baby scale and flat scale for toddlers

- + Weigh babies lying down and toddlers standing up
- + Compact, robust and lightweight: ideal for mobile use
- + High-quality baby scale at an economical price
- + Wide range of functions: TARE, HOLD and Breast-Milk-Intake-Function (BMIF)

Thanks to the removable weighing tray, even toddlers up to 50 kilograms can be weighed.

	seca 385	seca 384	seca 834*
Approval class	III	III	III
Capacity	50 kg	20 kg	20 kg
Graduation	20 g < 20 kg > 50 g	10 g < 10 kg > 20 g	10 g < 10 kg > 20 g
Medical Device Regulation (MDR) certified			
For further technical data see page 42			

*seca 834 is only available in certain countries.

Accessories seca 403 / seca 402

Carts for mobile support of seca baby scales

- + Ideal supplement to baby scales seca 757, seca 336 i, seca 336, seca 376 and seca 385 / 384 / 834

Pediatric measuring systems

Adaptable devices are preferred.

Clinics, medical practices and health care facilities have varied conditions and requirements. seca responds with a wide range of products for pediatrics – from infantometers to a portable measuring mat and from measuring rods to a head circumference measuring tape. seca has the right solution for every application, whether the devices are for in-patient or mobile use, in large or small spaces, for everyday or infrequent use. They all share the renowned seca quality which always lives up to the most demanding medical requirements.

seca 416

Infantometer for measuring babies and toddlers

- + Robust, extra large construction for precise measuring
- + Ensures correct lying position due to trough-shaped measuring surface
- + Measurement scale printed along top side for easy reading
- + Foot positioner cannot be moved by the infant thanks to the locking button

The foot positioner locks into place to capture results.

Measuring range 33 – 100 cm

Graduation 1 mm

Medical Device Regulation (MDR) certified

For further technical data see page 45

seca 417

Light, space-saving and stable measuring board also ideal for mobile use

- + Simple operation for quick mobile use
- + Folds up for space-saving storage
- + High-quality materials for long service life
- + Smooth surfaces for easy cleaning

The measurement results are easy to read from the large measuring scale.

Measuring range 10 – 100 cm

Graduation 1 mm

Medical Device Regulation (MDR) certified

For further technical data see page 45

seca 210

Mobile measuring mat for babies and toddlers

- + Light-weight and easy to clean with most commercially available disinfectants
- + Extremely robust and durable
- + Easy-care, washable material, compatible with all common disinfectants
- + Measuring mat rolls up for easy transport and space-saving storage
- + Fixed head piece and the sliding foot positioner make it simple to use

The measuring mat can be rolled up for space-saving storage.

Measuring range 10 – 99 cm

Graduation 5 mm

Medical Device Regulation (MDR) certified

For further technical data see page 45

seca 207

Baby measuring rod with large calipers

- + Large head and foot positioner for fast and simple measuring
- + Secure table or wall mounting possible with screw fittings
- + Enormous space savings thanks to folding calipers
- + Made of aluminum for durability
- + Abrasion-resistant scale due to screen printing

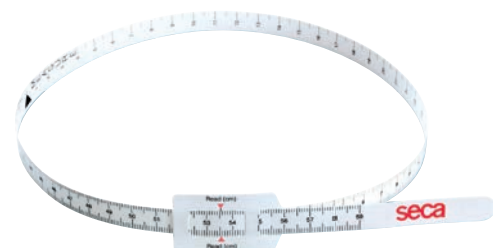

Movable calipers at one end of the measuring rod make this instrument suitable for use with both babies and toddlers.

Measuring range 7 – 99 cm

Graduation 1 mm

Medical Device Regulation (MDR) certified

For further technical data see page 45

seca 212

Measuring tape for head circumference of babies and toddlers

- + Hygienic, disposable measuring tape of non-stretch Teflon material
- + Double function: head circumference with the front side of the tape and facial symmetry with the rear side
- + Easy-to-read, colour-coded precise results
- + Practical dispenser (content: 15 tapes)

Precise and easy-to-read measurements made possible by clear, red markings.

Measuring range 3 – 59 cm

Graduation 1 mm

Medical Device Regulation (MDR) certified

For further technical data see page 45

Possible combination

seca 384 / 385 / 834*, seca 417 and seca 414

The mobile measuring and weighing system for babies and toddlers

- + Combined weighing and measuring of babies and toddlers in a lying position
- + The 2-in-1 baby and toddler scale plus measuring board can be easily transported together in a roomy carrying bag seca 414

*seca 834 is only available in certain countries.

Measuring stations

Measuring and weighing in a single step.

Measuring stations let you measure and weigh in one step to effectively determine patient height and weight. Be it an ultrasonic measuring station or measuring station with digital head slider, seca offers state-of-the-art technology, high-quality materials, elegant design and functions that make daily medical routine easier. EMR-validation means that the user no longer has to record the measured data manually and the seca Scale-up Line displays the name or ID of the patient.

seca Scale-up Line

EMR-validated ultrasonic measuring station with ID-Display

- + Display shows user and patient names or IDs for increased patient safety
- + Outstanding precision and high-speed measuring thanks to perfected ultrasound technology
- + Large platform made of tested seca Bearclaw Glass® for absolute breakage resistance and perfect hygiene
- + Illuminated LED footprints in the weighing platform show patients the correct standing position for accurate height measurement
- + Voice guidance to support the measurement process
- + Convenient transport with extremely robust rubber wheels
- + Optional animal sticker facilitates measuring and weighing of children
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

seca.com/scaleup

Scale

Approval class	III
Capacity	300 kg
Graduation	50 g < 150 kg > 100 g
Medical Device Regulation (MDR) certified	
For further technical data see page 46	

Ultrasonic height measurement

Measuring range	60 – 220 cm
Graduation	1 mm

Image contains optional barcode scanner mount seca 463 and barcode scanner from a third-party vendor.

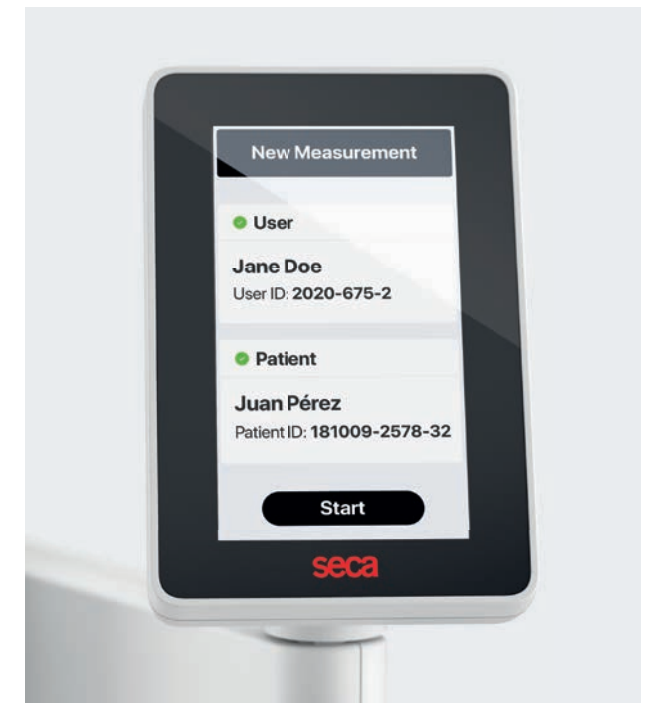

Order code **ON SMM AUT NN**

Flat scale seca 655
+ Ultrasonic height measurement seca 257

For further product variants see page 46

Illuminated LED footprints in the weighing platform show patients the correct standing position for accurate height measurement.

The displayed patient and user name offer greater control and increases patient safety.

Optional animal sticker: while the child is focusing on an animal at eye level, the head position is just right for precise height measurement.

seca 287

EMR-validated ultrasonic measuring station with voice guidance

- + Voice-guided self-measurement assists personnel
- + Outstanding precision and high-speed measuring thanks to perfected ultrasound technology
- + Hands-free measuring prevents the spread of germs
- + High-quality workmanship and modern design with safety glass and an aluminum profile
- + Precise 50 g graduation and 300 kg weighing capacity
- + Optional animal sticker facilitates measuring and weighing of children
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

Image contains optional animal sticker seca 487.

Three unique pairs of sensors transmit and receive ultrasonic signals separately and thereby ensure the most precise measurement results.

Thanks to the seca 452 interface module, measured data can be transmitted directly to the EMR system.

Scale

Approval class	III
Capacity	300 kg
Graduation	50 g < 150 kg > 100 g
Medical Device Regulation (MDR) certified	
For further technical data see page 46	

Ultrasonic height measurement

Measuring range	60 – 210 cm
Graduation	1 mm

seca 285

EMR-validated measuring station for height and weight

- + Measuring and weighing in one step with absolute precision
- + Precise 50 g graduation at a very high capacity of up to 300 kg
- + Precise head alignment by the seca Frankfurt Line Positioner
- + Wide range of height measurement: also suitable for pediatrics
- + Three-line touchscreen for simultaneous weight, height and BMI display
- + High-quality glass platform with a heel positioner for exact three-point measurement
- + Display in the headpiece shows the height
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

The Frankfurt line positioner, which is offered only by seca, makes sure the patient's head is in exactly the right position.

Three-line touchscreen for simultaneous weight, height and BMI display.

Scale

Approval class	III
Capacity	300 kg
Graduation	50 g < 150 kg > 100 g
Medical Device Regulation (MDR) certified

Height measurement

Measuring range	30 – 220 cm
Graduation	1 mm

Column scales

Indestructible support in patient care.

Thanks to their high precision, steadfast mechanics, durable aluminum, steel and cast iron construction as well as many sophisticated details, seca column scales are an indispensable part of the medical world. When used with a height measuring rod, they double as a measuring station and can determine weight, height and BMI in a single action. The column scales can be easily transported thanks to their transport wheels.

seca 704 / 704 r

EMR-validated column scale with 300 kg capacity and measuring rod

- + Extremely robust, highly precise seca weighing technology with 300 kg capacity
- + Non-tilting base made of heavy duty cast iron
- + Impact- and scratch-resistant powder coating
- + Can be used as a measuring station with included height measuring rod
- + Optional panda bear facilitates measuring and weighing of children
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

With the cuddly panda seca 459 weighing is playful and fun for children.

The seca 704 can send measurements via the optional interface module seca 452 directly to an EMR system.

Scale	seca 704	seca 704 r
Approval class	III	
Capacity	300 kg	
Graduation	50 g < 150 kg > 100 g	
Interfaces	Wi-Fi / Ethernet (optional)	RS-232
Medical Device Regulation (MDR) certified		
For further technical data see page 48		

Telescopic measuring rod seca 220 (included)

Measuring range	60 – 200 cm
Graduation	1 mm

seca 704 s

EMR-validated column scale with stadiometer and 300 kg capacity

- + The height measuring rod with a heel plate is ideal for three-point measurement for patients specifically affected by obesity
- + Display faces the user for increased visual ergonomics
- + Extremely robust, highly precise seca weighing technology with 300 kg capacity
- + Non-tilting base made of heavy duty cast iron
- + Impact- and scratch-resistant powder coating
- + Wide range of functions: BMI, Pre-TARE, HOLD, Auto-HOLD, mother+child function, three-step damping
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

The measuring scale is printed on the side of the measuring rod improving visual ergonomics.

Practical wheels permit mobile use.

Scale	
Approval class	III
Capacity	300 kg
Graduation	50 g < 150 kg > 100 g
Medical Device Regulation (MDR) certified	
For further technical data see page 48	

Stadiometer (included)

Measuring range	6 – 230 cm
Graduation	1 mm

seca 799

Digital column scale with BMI function

- + Particularly robust and compact column scale
- + Includes BMI function, TARE and HOLD
- + Robust weighing platform made of steel
- + Easily movable with transport wheels
- + Can be powered with batteries for mobile use or a power adapter for stationary use
- + Expandable into a complete measuring station with an optional height measuring rod

The slip resistant surface with an anti-tip column design guarantees a safe and secure foothold.

The BMI calculation can be displayed with the touch of a button.

Scale

Approval class	III
Capacity	200 kg
Graduation	100 g < 150 kg > 200 g
Medical Device Regulation (MDR) certified	
For further technical data see page 48	

Telescopic measuring rod seca 220 (optional)

Measuring range	60 – 200 cm
Graduation	1 mm

Image contains optional measuring rod seca 220.

seca 711

Mechanical column scale with eye-level beam

- + Easy reading and operation at eye level
- + Requires no batteries or other power supply
- + Same level of accuracy as a digital column scale
- + Non-tilting and highly robust base made of cast iron
- + Easy movable due to transport castors

Scale

Approval class	III
Capacity	220 kg
Graduation	100 g
Medical Device Regulation (MDR) certified	
For further technical data see page 48	

Telescopic measuring rod seca 220 (included)

Measuring range	60 – 200 cm
Graduation	1 mm

seca 756

Mechanical column scale with BMI display and evaluation

- + Fast and easy BMI determination
- + Simultaneous evaluation of nutritional status
- + Clear circular scale and low platform
- + Robust steel construction, high-quality and durable
- + Corrosion resistant inside and outside: moisture is not a problem

Once the weight has been measured, an integrated, color-coded BMI scale indicates if the patient is underweight, normal or affected by obesity.

Scale

Approval class	III
Capacity	160 kg
Graduation	500 g
Medical Device Regulation (MDR) certified

Telescopic measuring rod seca 224 (included)

Measuring range	60 – 200 cm
Graduation	1 mm

Flat scales

Saving on space does not mean saving on patient benefits.

Where space is limited, there remains plenty of space for seca flat scales. Their wide array of functions make the day-to-day routines in medical care easier. Additional features include high weight capacity of up to 360 kg and long-battery life. Useful accessories such as carrying cases and a stand for a separate display make using seca flat scales even more enjoyable.

seca 651

EMR-validated flat scale with ID-Display and stable glass platform

- + Display shows names or IDs of users and patients for enhanced safety
- + Maximum flexibility in display positioning with universal mount for tabletop or wall mounting
- + Large platform made of tested seca Bearclaw Glass® for absolute breakage resistance and perfect hygiene
- + Adjustable damping for fast and precise weighing
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

seca.com/scaleup

The ID-Display enables you to identify your patients during the weighing process and prevents any risk of mix-up.

Approval class	III
Capacity	300 kg
Graduation	50 g < 150 kg > 100 g
Medical Device Regulation (MDR) certified	
For further technical data see page 50	

EMR))

seca 635 / seca 635 r

EMR-validated flat scale with extra-large platform

- + Extra-large platform with 300 kg capacity
- + Cable remote display for wall mounting or table installation
- + Includes BMI calculator and three-stage damping
- + Wide range of functions: TARE, Pre-TARE, HOLD and Auto-HOLD
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

The patient's BMI can be determined when their height is entered.

It's easy to step onto the extra large, slip proof platform.

	seca 635	seca 635 r
Approval class	III	
Capacity	300 kg	
Graduation	100 g < 200 kg > 200 g	
Interfaces	Wi-Fi / Ethernet (optional)	RS-232
Medical Device Regulation (MDR) certified		
For further technical data see page 50		

seca 899

Flat scale with cable remote display

- + Cable remote display for wall mounting or table installation
- + Reliable and durable: seca quality that pays off
- + Leveling feet for strong stability
- + Can be powered with batteries for mobile use or a power adapter for stationary use
- + With TARE function, HOLD function and BMI computer

The angle of the display can be adjusted for easy reading and can be used separately from the base.

Approval class	III
Capacity	200 kg
Graduation	100 g < 150 kg > 200 g
Medical Device Regulation (MDR) certified	
For further technical data see page 50	

seca 878

Flat scale with foot switches and double display

- + Double display lets the doctor and patient read simultaneously
- + Reliable and durable: seca quality that pays off
- + May be used standing up thanks to the foot switches
- + Can weigh 10,000 times with a single set of batteries
- + Mother+child function to weigh toddlers

The two switches on the front side of the scale can be operated by foot.

Approval class	III
Capacity	200 kg
Graduation	100 g < 150 kg > 200 g
Medical Device Regulation (MDR) certified	
For further technical data see page 50	

seca 878 dr

Flat scale with customizable label

- + Customizable label builds trust
- + Cost-effective, reliable and durable: seca quality that pays off
- + Double display allows the doctor and patient to read simultaneously
- + Leveling feet for strong stability
- + May be used standing up thanks to the foot pedals

seca.com/doctorscale

Seeing the name of the doctor or the hospital on the scale inspires confidence in the accuracy of the measurement.

Approval class	III
Capacity	200 kg
Graduation	100 g < 150 kg > 200 g
Medical Device Regulation (MDR) certified	
For further technical data see page 50	

seca 877

Flat scale with foot switch

- + Precise weighing technology for medical use
- + Mother+child function to weigh toddlers while cradled on the mother's or father's arm
- + Can be operated in a standing position thanks to foot switch and tap-on function
- + Leveling feet for strong stability
- + Can weigh up to 10,000 times with a single set of batteries

Tap-on function for weighing without turning on the scales.

Approval class	III
Capacity	200 kg
Graduation	100 g < 150 kg > 200 g
Medical Device Regulation (MDR) certified	
For further technical data see page 50	

seca 761*

Mechanical scale with large dial

- + Robust, powder-coated steel housing provides an attractive and longlasting finish
- + Corrosion resistant inside and outside: Moisture is not a problem
- + Clip fixation system for easy rubber-mat exchange
- + Ready for use without electrical connection or battery
- + High-quality medical grade personal scale
- + A weighing experience that no digital scale can offer

The especially large circular display allows easy reading of measurements.

Approval class	III
Capacity	150 kg
Graduation	1 kg
Medical Device Regulation (MDR) certified	
For further technical data see page 51	

*seca 761 is only available in certain countries.

Height and circumference measuring systems

When the quality is right, so are the measurements.

Measuring rods and circumference measuring tapes are relatively simple devices in routine medical work – however, they still have to fulfill challenging clinical requirements. That's why seca offers non-abrasive measurement systems and parts made of distortion-resistant anodized aluminum.

seca 274

Freestanding stadiometer with display on the headpiece

- + Free-standing stadiometer: can be set up anywhere in the room
- + Digital height measurement: comfortable and precise
- + Precise head alignment by the seca Frankfurt line positioner
- + High-quality glass platform with heel plate
- + Leveling feet provide a very stable base

The leveling feet provide a stable base, even on uneven surfaces.

The Frankfurt line positioner, which is offered only by seca, makes sure the patient's head is in exactly the right position.

Measuring range 30 – 220 cm

Graduation 1 mm

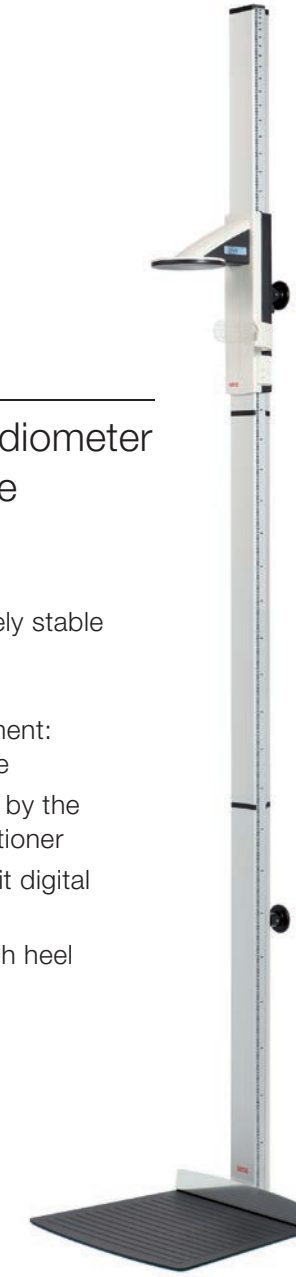

Medical Device Regulation (MDR) certified

For further technical data see page 52

seca 264

Wall-mounted stadiometer with display on the headpiece

- + Wall mounting: absolutely stable and wobble-free height measurement
- + Digital height measurement: comfortable and precise
- + Precise head alignment by the seca Frankfurt line positioner
- + Headpiece with a backlit digital display for easy reading
- + Non-slip rubber mat with heel positioner

The easy-to-clean mat puts the patient's feet in the right position and gives the patient a feeling of safety and comfort.

The backlit display on the headpiece is very easy to read.

Measuring range 30 – 220 cm

Graduation 1 mm

Medical Device Regulation (MDR) certified

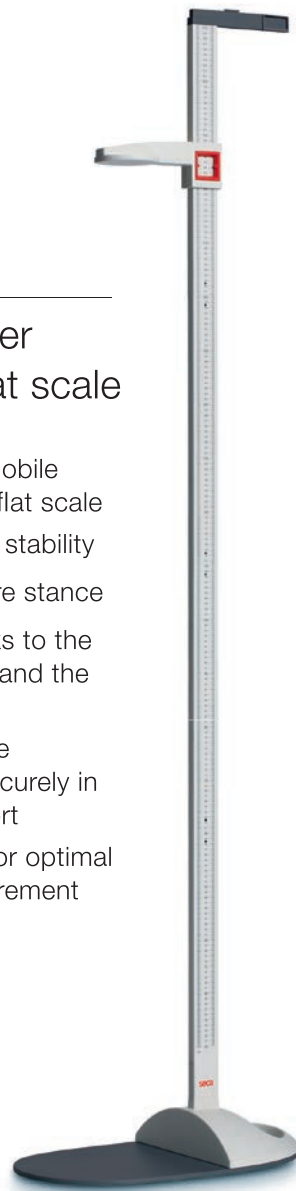

For further technical data see page 52

seca 217

Portable stadiometer combinable with flat scale

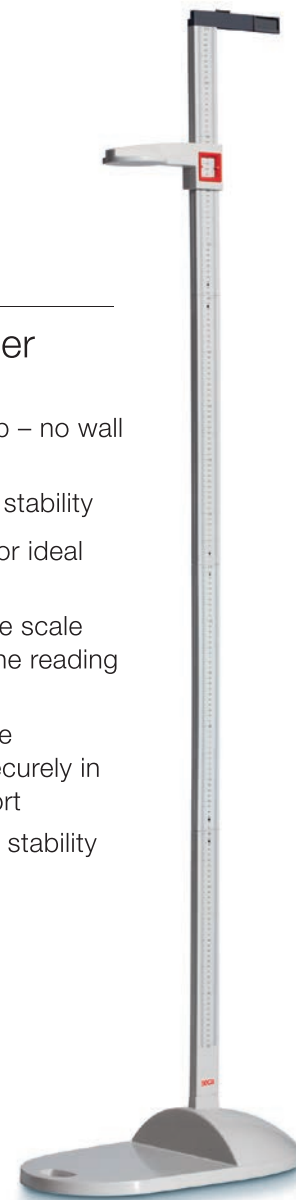

- + Can be connected to a mobile measuring station with a flat scale
- + Wall spacer for additional stability
- + Robust platform for secure stance
- + Convenient reading thanks to the scale printed on the side and the reading window
- + The measuring rod can be dismantled and stored securely in the base for easy transport
- + Includes heel positioner for optimal three-point height measurement

seca 213 / 213I

Portable stadiometer

- + Simple and easy to set up – no wall fastening necessary
- + Large floor plate ensures stability
- + Includes heel positioner for ideal three-point measurement
- + Easy to read thanks to the scale printed on the side and the reading window
- + The measuring rod can be dismantled and stored securely in the base for easy transport
- + Wall spacer for additional stability

The adapter element seca 437 connects the stadiometer to a flat scale.

The integrated handle and securely locking parts make the stadiometer easy to carry. **seca 213I:** equipped with level for correct positioning.

Measuring range	20 – 205 cm
Graduation	1 mm
Medical Device Regulation (MDR) certified	
For further technical data see page 52	

Measuring range	20 – 205 cm
Graduation	1 mm
Medical Device Regulation (MDR) certified	
For further technical data see page 52	

seca 222

Telescopic measuring rod with large measuring range

- + Designed specifically for wall mounting
- + With side print for greater ease of reading
- + Extra wide head gauge
- + Includes heel positioner for ideal three-point measurement
- + Durable aluminum measuring rod
- + Abrasion-resistant scale due to high-quality screen printing

The foot positioner ensures exact positioning and precise measurements.

Measuring range	6 – 230 cm
Graduation	1 mm
Medical Device Regulation (MDR) certified	
For further technical data see page 52	

seca 216

Measuring rod for children and adults

- + Flexible measuring range options
- + Easy-to-read measurement scale
- + Adjustable head positioner
- + Choice of two units of measurement
- + Simple assembly

Whether for children or adults – the measuring range can be adjusted as needed. The head stop can be fixed with the locking screw.

Measuring range	max. 138 cm, selectable from 3.5 – 230 cm
Graduation	1 mm
Medical Device Regulation (MDR) certified	
For further technical data see page 52	

seca 206

Rolling measuring tape for wall mounting

- + Space-saving, roll-up mechanism
- + Simple read-out of results through display window
- + Durable tape made of metal

Measuring range 0 – 220 cm

Graduation 1 mm

Medical Device Regulation (MDR) certified

For further technical data see page 52

The wall-mounted roll measuring tape is particularly space-saving and allows for quick and easy measuring.

seca 203

Ergonomic circumference measuring tape with extra Waist-To-Hip-Ratio calculator (WHR)

- + Retractable measuring tape for precise body measurements
- + WHR calculator for quick determination of body fat distribution
- + WHR scale of metal for long life

Measuring range 0 – 205 cm

Graduation 1 mm

Medical Device Regulation (MDR) certified

For further technical data see page 52

seca 201

Ergonomic circumference measuring tape

- + Retractable measuring tape for precise body measurements
- + Printed scale on side makes results easy-to-read
- + Convenient one-handed operation fasten start of tape to retraction mechanism
- + Compact and easy to store

Measuring range 0 – 205 cm

Graduation 1 mm

Medical Device Regulation (MDR) certified

For further technical data see page 52

Handrail scales

Firm support for safe weighing.

Handrail scales from seca offer every patient a secure grip and are the best fall prevention when weighing. They are designed to be easily accessible and to weigh precisely, no matter where and how the patient is supported. Safe access and support options simplify workflows and save staff the hassle of careful positioning of the patient or adjustments to the scale before weighing. Practical features such as transport wheels and folding functions make the large scales transportable and stowable.

seca Scale-up Line

EMR-validated handrail scale with ID-Display and optional height measurement

- + Display shows user and patient names or IDs for increased patient safety
- + Data transmission controlled by touchscreen
- + Safe weighing with a stable handraily
- + Lightweight, sophisticated design and extremely robust thanks to steel handrail that is directly attached to the cast iron pedestal
- + Large platform made of tested seca Bearclaw Glass® for absolute breakage resistance and perfect hygiene
- + Convenient transport with extremely robust rubber wheels
- + Optional panda bear facilitates measuring and weighing of children
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

Measuring range	100 – 220 cm
Graduation	1 mm

The ID-Display shows name or patient ID with every measurement, which are gathered by an additional barcode scanner.

Image contains optional barcode scanner mount seca 463 and barcode scanner from a third-party vendor.

Order code **ON SHM ANT NN**

Flat scale seca 655
+ Handrail seca 455

For further product variants see page 54

The handrail offers patients with restricted mobility the necessary safety and reduces the support and holding workload for staff.

Image contains optional barcode scanner mount seca 463 and barcode scanner from a third-party vendor.

Order code **ON SHM AUT NN**

Flat scale seca 655
+ Handrail seca 455
+ Ultrasonic height measurement seca 257

With the cuddly panda seca 459 (optional) weighing is playful and fun for children.

seca 645

EMR-validated handrail scale with generous platform

- + Safe weighing due to sturdy handrail
- + Large non-slip platform with 300 kg capacity
- + 360° swivel display for easy reading
- + With a BMI calculator and damping system
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

Image contains optional measuring rod seca 223.

The display can be rotated in every direction.

Scale

Approval class	III
Capacity	220 kg
Graduation	100 g
Medical Device Regulation (MDR) certified	
For further technical data see page 54	

Telescopic measuring rod seca 223 (optional)

Measuring range	6 – 230 cm
Graduation	1 mm

Because the handrail is part of the weight sensitive area, measurements are absolutely sure even if the patient supports himself on it.

Wheelchair scales

Remove barriers with wheelchair scales from seca.

Weighing immobile patients can be a complicated process, but it doesn't have to be. The weighing solutions from seca offer the possibility of weighing patients in wheelchairs or even in hospital beds. The low-level, generously dimensioned platforms with ramps and other innovative functions guarantee comfortable, effortless and precise weighing.

seca 677 / seca 677 r

EMR-validated wheelchair scale with handrail

- + Large wheelchair accessible platform
- + Convenient and foldable to save space
- + Mobile due to transport wheels
- + Handrail as a standing aid
- + Non-slip rubber mat
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

	seca 677	seca 677 r
Approval class	III	
Capacity	300 kg	
Graduation	100 g < 200 kg > 200 g	
Interfaces	Wi-Fi / Ethernet (optional)	RS-232
Medical Device Regulation (MDR) certified		
For further technical data see page 56		

The scale can be folded for easy transport.

Integrated ramps on both sides allow for the safe and comfortable operation with a wheelchair.

seca 685 / seca 685 r

EMR-validated multifunctional scale

- + Safe weighing of standing, sitting or wheelchair patients
- + Firmly anchored steel handrail on both sides serves as ideal standing aid
- + Large, easy to access platform with non-slip surface
- + Mobile due to integrated transport wheels
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

Thanks to the ramp, wheelchairs can be wheeled on with ease and comfort.

	seca 685	seca 685 r
Approval class	III	
Capacity	300 kg	
Graduation	100 g < 200 kg > 200 g	
Interfaces	Wi-Fi / Ethernet (optional)	RS-232
Medical Device Regulation (MDR) certified		
For further technical data see page 56		

EMR

seca 665

EMR-validated wheelchair scale

- + Extra-large, easily accessible platform: ideal for wheelchairs
- + High capacity of up to 300 kg
- + Side rails on the platform ensure safe rolling of a wheelchair onto and from the scale
- + Easy to fold together and transport
- + Non-slip rubber mat
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

The seca 664 simply folds up and moves easily across the floor on wheels.

Approval class	III
Capacity	300 kg
Graduation	100 g < 200 kg > 200 g
Medical Device Regulation (MDR) certified	
For further technical data see page 56	

EMR

seca 675

EMR-validated platform scale with remote display

- + Medical-grade, robust scale for years of use with high patient volume
- + Flexible cable remote display for wall mounting or use with a stand
- + Extra large platform: suitable for wheelchairs or patients with obesity
- + Permanently save the weight of wheelchairs or standing aids with the Pre-TARE function
- + Low profile platform with ramp for easy rolling onto the scale
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

Approval class	III
Capacity	300 kg
Graduation	100 g < 200 kg > 200 g
Medical Device Regulation (MDR) certified	
For further technical data see page 56	

Accessory **seca 472**

Stand for cable remote display

- + Stable solution for cable remote display of the scales seca 635, seca 657 and seca 675

Bed and stretcher scales

Precise results in all situations.

seca bed and stretcher scales enable you to obtain patient weight with utmost precision even in challenging scenarios such as emergency arrivals or wherever bed-bound patients have to be weighted. Simply roll the hospital bed, stretcher, or gurney onto the weighing platform, use the Pre-TARE function, and determine the patient's weight.

seca 657 / 657 r

EMR-validated platform scale for stretchers

- + Weigh patients quickly and safely while lying down on the stretcher
- + Stable construction with very high capacity
- + Transportable due to wheels and integrated handles
- + Pre-TARE function for determining precise weight of patient
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

The seca 657 / 657 r can determine weight without requiring the patient to leave the bed or stretcher.

	seca 657	seca 657 r
Approval class	III	
Capacity	300 kg	
Graduation	100 g < 200 kg > 200 g	
Interfaces	Wi-Fi / Ethernet (optional)	RS-232
Medical Device Regulation (MDR) certified		
For further technical data see page 57		

Chair scales

Comfortable and save weighing while seated.

How can you gently and carefully weigh bedridden patients or people who are unsteady on their feet? The best choice is a seca chair scale, which you can take directly to the patient. That saves you – and nursing staff – from unnecessary steps.

seca 959

EMR-validated chair scale with precise graduation

- + 50 g graduation for exact measurement while sitting
- + Fold-up arm and footrests for easy access
- + Ergonomic seat for increased patient comfort
- + Suitable for patients affected by obesity with up to 300 kg weighing capacity
- + Sophisticated engineering and robust construction for a long lifespan
- + Parking brake for secure position
- + EMR-validated: transmit measured data directly to an electronic medical record system or printer

With its exceptionally high capacity of up to 300 kg, the BMI function and options to use mains or battery power, the chair scale seca 959 is ideal for use in any situation.

Approval class	III
Capacity	300 kg
Graduation	50 g < 150 kg > 100 g < 250 kg > 200 g
Medical Device Regulation (MDR) certified	
For further technical data see page 58	

seca 956

Chair scale for weighing while seated

- + The simple and secure solution for patients with decreased mobility
- + Fold-up arm and footrests make sitting down easy
- + Ergonomic seat for increased patient comfort
- + Wheels include brakes to ensure the scale stays in place when needed
- + Highest quality for a long service life

The seca 956 runs on batteries for mobile use and offers a capacity of up to 200 kg.

Approval class	III
Capacity	200 kg
Graduation	100 g
Medical Device Regulation (MDR) certified	
For further technical data see page 58	

Specialized scales

Small size, big help.

As a specialist for medical measuring and weighing, seca naturally offers solutions for special applications. For instance, the splash-protected organ and diaper scale and the extremely precise portion and diet scale for clinical nutritionists.

seca 856

Organ and diaper scale with stainless steel cover

- + Complete stainless steel-surface reduces contamination
- + Easy to clean and disinfect
- + Scale completely sealed from moisture
- + Pre-TARE function for permanent use with the container of your choice
- + Increase in metal housing protects display from liquid

The stainless steel surface is tough and easy to clean.

Approval class	unapproved
Capacity	5 kg
Graduation	1 g < 3 kg > 2 g

For further technical data see page 58

seca 852

Portion and diet scale

- + Gram-precise display for the accurate weighing of food
- + Scale can be stowed in compact bowl
- + Food-safe plastic bowl is easy to clean
- + High 3,000 g capacity

The fine graduation of just one gram permits precise weighing.

The scale can be conveniently stored within the compact bowl.

Approval class	unapproved
Capacity	3 kg
Graduation	1 g

For further technical data see page 58

FUNCTIONS		
TARE	•	•
Pre-TARE	•	
HOLD	•	
Automatic switch-off	•	•

TARE function

Useful when any additional weight (e.g. diapers or blankets of babies/small children and also chairs or wheelchairs) is not to be included in the result. First, this additional weight is measured and then the display is reset to zero. The weight of this object is then disregarded at the next weighing.

Pre-TARE function

When activated, a previously stored value is automatically deducted from the currently measured weight. For example, when caregiver and patient stand on the scales together and only the weight of the patient is to be shown.

BMIF

The amount of milk taken by a baby when being breastfed can be ascertained with the aid of the Breast-Milk-Intake function (BMIF). At the touch of a button, the weight of the baby determined before feeding is stored and then deducted from the weight determined after feeding (difference function).

Mother+child function

This function was developed to enable the weighing of children in the arms of their parents. When the mother+child function is activated, the previously stored weight of the adult is deducted from the currently determined value. The display then shows only the weight of the child, with an accuracy of down to 50 g.

HOLD, Auto-HOLD

Once the weight has been saved with a press of the HOLD key, it remains in the display after the patient has left the scale. This function lets the doctor or nurse care for the patient first and then record the weight. When the Auto-HOLD function is activated, the HOLD function is automatically triggered as soon as the weight has stabilized.

BMI function

The Body Mass Index correlates height and weight to one another. A tolerance zone considered to be ideal from a health point of view is between 18.5 and 24.9. If the value is higher or lower, medical advice should be obtained.

BFR

The Body Fat Rate compares the patient's percentage of fat with an ideal value. Body height and weight are the basis of calculation; extra consideration is given to gender.

BSA function

The Body Surface Area function calculates the surface area of a human body.

Patient data input

Data such as gender, age and PAL (Physical Activity Level) can be entered via the input key on the multifunction touch display of the seca 285. Together with the height and weight measurements, the data are wirelessly transmitted to calculate the resting energy expenditure and total energy expenditure or percentiles for children and teenagers.

CLEAR, Auto-CLEAR function

Old measurements or patient data can lead to incorrect calculations. Therefore, the CLEAR function deletes results from previously measured patients. It can be activated manually or automatically with Auto-CLEAR after five minutes.

Weighing range switch-over, auto weighing range switch-over

seca scales with a multi-range function let you quickly switch manually from one range to another. From a fine graduation at low capacity in scale range 1 to maximum capacity in scale range 2.

Damping function

The damping function makes it possible to determine the precise weight in spite of disturbances during the weighing process, e.g. caused by the patient moving. The degree of damping can be adjusted as required before weighing a patient: the stronger the damping, the less sensitively the scales react to the movements during the weighing process.

RESET function

The RESET function restores the factory settings.

SEND, Auto-SEND function

At the touch of a button, the measured and input data are sent to receiving devices such as a scale with the appropriate BMI function or a PC via radio. When the auto SEND function is set, the SEND function is prompted automatically with a stable weight value or a confirmed height reading.

Confirm button

With the touch of a button, measured values can be transmitted directly into the electronic patient record (EMR) after identification of the patient and the user by barcode scanner. Manual transcription errors can therefore be avoided.

Three-point height measurement

An accurate height measurement can only be obtained when a patient comes in contact with three points (shoulders, rear-end, and heels) together with a stadiometer. This ensures the patient is standing fully upright.

Products bearing this symbol fulfill the applicable requirements of the 93/42/EEC (MDD) or EU 2017/745 (MDR) on medical devices.

The professionalism of seca is also officially recognized. The notified body for medical devices responsible for seca confirms with the certificate that seca consistently complies with the strict legal requirements as a manufacturer of medical devices. The quality assurance system at seca includes

the areas of Design and Development, Production, Sales and Service of medical scales, height measuring instruments, software and measurement systems for the assessment of health status and nutritional condition. seca is authorized to conduct the manufacturer's conformity assessment of medical scales.

We are anxious to preserve our natural resources. This is why we strive to save packaging material where practical. And what is left over can be conveniently disposed of locally via Germany's Dual System recycling programme.
